

Construction of a EPzS cell

- 1 – Negative end electrode
- 2 – Separator
- 3 – Positive electrode
- 4 – Negative electrode
- 5 – Negative plate group with terminal and group bar
- 6 – Positive plate group with terminal and group bar
- 7 – Lid
- 8 – Pillar with moving seal
- 9 – Cell connector
- 10 – Air agitation tube with T-piece connector
- 11 – Cell container with integrated prisma
- 12 – Terminal screw – (with measuring point)
- 13 – Terminal screw +
- 14 – Filling plug
- 15 – Water refilling plug BFS III
